Take this booklet
to your doctor.

Tier Drugs subject to change without notice based
on manufacturer pricing.

Dear Member:

Your prescription program is designed to educate you on the use of generic and other low cost brand name drugs. The program is designed to help you and your doctor find drugs within the same therapeutic class as a drug you may be currently taking. Most of all, **your program is designed to save you money on your prescription drug costs.** This 4 Tier Prescription Program card is recognized at 98% of pharmacies in the United States and Puerto Rico.

The formulary program has four tiers:

- The first tier is generic drugs that will be available to you for \$10.00 or less.
- The second tier is brand name drugs and select generic drugs that will be available to you for \$20.00 or less.
- The third tier is generic and brand drugs available at to you for \$50.00 or less.
- The fourth tier is brand name drugs available at a pre-negotiated special discount price.

Due to the volume of drugs under Tier 4 not all are printed in this guide. Please check the website for your specific drugs.

To get the most out of this program you should ask your doctor to prescribe a drug within the first two tiers if possible. Often times drugs within the same therapeutic class can be prescribed in place of an expensive brand name drug. Of course, if you choose the higher price brand name drug we have negotiated a substantial discount to you. Please review this entire booklet. You may want to refer to the “frequently asked questions” section on the website for more information.

Feel free to contact our customer service center if you have additional questions. Our knowledgeable Help Desk and Customer Service department ensures that all physician, member and pharmacy calls are responded to swiftly and accurately

*“I saved \$45.22 on my four prescriptions! Talk about happy!”
Denver, CO*

*“I saved \$168.33 on 5 prescriptions at Lowe’s Pharmacy.”
Amarillo, TX*

*“I saved \$49.58 on 2 prescriptions at Walgreen’s.”
Lubbock, TX*

Remember, don't leave the pharmacy without calling the Pharmacy Help Desk number printed on the back of your card if the pharmacy has any difficulty processing your prescriptions.
